

Live Sports Production - Core HD Production Upgradeable to UHD

An integrated, highly space efficient sports production system for SD/HD, upgradeable to UHD when you're ready

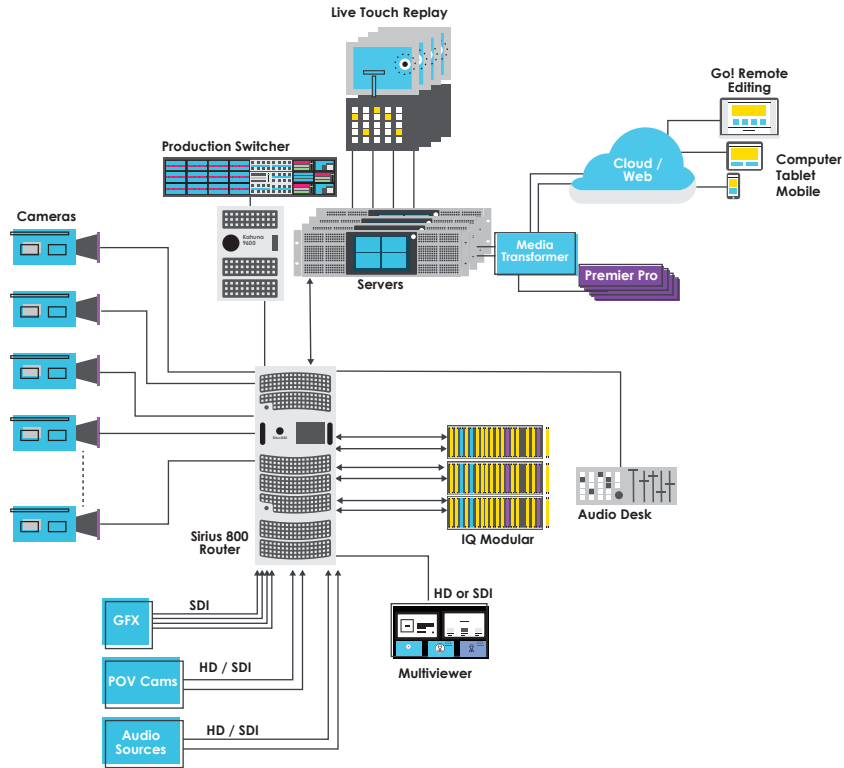

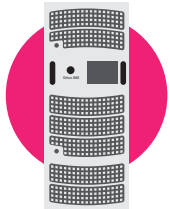

Live Production Switching - Kahuna 9600

- UHD ready 3Gbp/s switchers
- Powerful modular Maverik control panel
- FormatFusion3 for multi-format productions
- Supports SDI, 12G-SDI, IP inputs and outputs
- Up to 24 M/Es

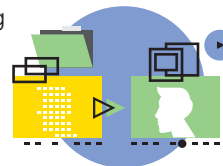

Routing - For Example Sirius 840

- 576 inputs, 1024 outputs
- Hybrid video & audio routing
- AHP (advanced hybrid processing) integrated
- Coax, fiber, SDI, AES, MADI, IP options
- Integrated multiviewers in Sirius routers

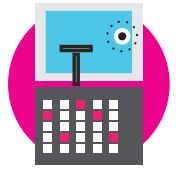

Upgrade to UHD

- Reconfiguration of SAM components only
- 3Gbp/s Record & replay with UHD upscaling
- Rescale production to UHD (cameras and routing capacity)
- No change to operational interface

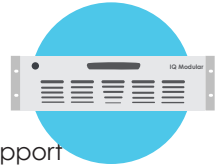

Replay/Editing - LiveTouch

- Scalable IT-based solution
- Intuitive & simple control panel
- Designed for demanding sports replay
- Integrated editing
- Integrated telestration & graphics

Processing

- Flexible & reliable IQ Modular
- Full module list for flexibility
- SD/HD/3Gbp/s/12G-SDI & IP support
- 3 Chassis types available
- Complete integration with control systems

Monitoring & Control

- Choice of standalone, modular, or router integrated multiviewers
- Excellent picture quality and live performance
- Internal & external UMD & tally support
- Mix HD, 3G & UHD sources & displays
- Unlimited desktop multiviewer expansion
